FLUOROVINYL ETHERS AND POLYMERS OBTAINABLE THEREFROM

ABSTRACT

Fluorovinyl ethers having the formula $CFX=CXOCF_2OR$, wherein R is a C_2-C_6 linear, branched or C_5-C_6 cyclic (per)fluoroalkyl group, or a C_2-C_6 linear, branched (per)fluoro oxyalkyl group containing from one to three oxygen atoms; when R is fluoroalkyl or fluorooxyalkyl group as above defined, it can contain from 1 to 2 atoms, equal or different, selected from the following: H, Cl, Br, I; X = F, H; and homopolymers or polymers obtainable by polymerizing said Fluorovinyl ethers with at least another polymerizable monomer.
